Office Hours: Tuesdays 4:00-5:00

August 23, 2017

CONDITIONAL STATEMENT

WHILE LOOPS

the code within a while loop is repeated based on a boolean statement (true/false)

```
while condition==false:  
    do some task
```

main code continues

FOR LOOPS

Loop that allows us to iterate through a list of items.

```
for i in range(10):  
    do some task
```

main code continues
